[REDACTED] CONTENT

1. A draft of regulations dated 16 March 1949 pertaining to the blacking-out of industrial plants as a precaution against air attack was circulated among industrial corporations by the Ministry of Industry at the end of March and the beginning of April 1949. This was the second draft so circulated, and it took into consideration all suggestions which had been made by industrial corporations to the first draft.
2. The second draft was not conclusive but was to be used as the basis for further negotiations, so that the needs and problems of the various industrial areas would be met. Suggestions were to reach the Ministry of Industry by 30 April 1949.
3. A draft of special regulations was to be drawn for the metallurgical works and mines.
